## Subject index\*

Abstracts for the APIC 29th Annual Educational Conference and International Meeting are located at [www.mosby.com/ajic](http://www.mosby.com/ajic).

### A

#### Accidental falls

Enhancing the safety of hospitalization by reducing patient falls (Morse et al). 2002;30:376-80 (Practice forum)

#### *Acinetobacter baumannii*

Underlying characteristics of patients harboring highly resistant *Acinetobacter baumannii* (Mahgoub et al). 2002;30:386-90

#### Alcohols

Flash fire associated with the use of alcohol-based antiseptic agent (Bryant et al). 2002;30:256-7 (Letter)

#### Allergens

Performance of latex and nonlatex medical examination gloves during simulated use (Korniewicz et al). 2002;30:133-8

#### Antibiotics

The implementation of a surgical antibiotic prophylaxis program: the pivotal contribution of the hospital pharmacy (Prado et al). 2002;30:49-56 (Practice forum)

Prescribing practice for antibiotic prophylaxis for cesarean section in a teaching hospital in Brazil (Heineck et al). 2002;30:341-5

#### Antibodies

Measles antibody prevalence rates among young adults in Israel (Gdalevich et al). 2002;30:164-9 (Global perspectives)

#### Anti-infective agents, local

Analysis of antimicrobial resistance among gram-negative bacilli and antimicrobial use in intensive care unit patients for 5 years in a Veterans Affairs medical center (Gentry et al). 2002;30:411-6

Assessment of handwashing practices with chemical and microbiologic methods: preliminary results from a prospective crossover study (Marena et al). 2002;30:334-40

Benefits of antibacterial products well documented (Gerba) (Letter) (Perencevich et al) (Letter reply). 2002;30:257-8

Flash fire associated with the use of alcohol-based antiseptic agent (Bryant et al). 2002;30:256-7 (Letter)

Guideline for hand hygiene in health-care settings: recommendations of the Healthcare Infection Control Practices Advisory Committee and the HICPAC/SHEA/APIC/IDSA Hand Hygiene Task Force (Boyce and Pittet). 2002;30:xxx1

Hygienic hand antiseptics: should they not have activity and label claims against viruses? (Sattar et al). 2002;30:355-72 (State of the science)

The importance of evaluating product dispensers when selecting alcohol-based handrubs (Kohan et al). 2002;30:373-5 (Practice forum)

### B

#### Bacteremia

Clinical and epidemiologic significance of coagulase-negative staphylococci bacteremia in a tertiary care university Israeli hospital (Finkelstein et al). 2002;30:21-5

#### Bacterial infections

Bacterial contamination during routine formula preparation (Minouni et al). 2002;30:44-5 (Brief rep.)

Bacterial contamination of saline nasal spray/drop solution in patients with respiratory tract infection (Brook). 2002;30:246-7 (Brief report)

#### Biocides

Biocides and pharmacologically active drugs as residues and in the environment: is there a correlation with antibiotic resistance? (Russell). 2002;30:495-8

#### Biodefense

Research opportunities in biodefense for the National Institute of Nursing Research (Sigmon and Larson). 2002;30:490-4 (Special Report)

#### Bioterrorism

Bioterrorism preparedness: a survey of Nebraska health care institutions (Helget and Smith). 2002;30:46-8 (Brief rep.)

#### Blood-borne pathogens

Epidemiology of needlestick and sharps injuries in a tertiary care center in Saudi Arabia (Memish et al). 2002;30:234-41 (Global perspectives)

Estimation of the risk of bloodborne pathogens to health care workers after a needlestick injury in Taiwan (Shiao et al). 2002;30:15-20

Exposure to HIV risk during training among medical technologist students of the Faculty of Allied Health Science, Chulalongkorn University (Suwansaksri et al). 2002;30:320 (Letter)

Guidelines for the prevention of intravascular catheter-related infections (O'Grady et al). 2002;30:476-89 (Special Report)

Lookback investigation of patients potentially exposed to HIV type 1 after a nurse-to-patient transmission (Astagneau et al). 2002;30:242-5 (Clinical case study)

Risk of medical sharps injuries among Chinese nurses (Phipps et al). 2002;30:277-82

#### Brief reports

Brief reports. 2002;30:44-8, 246-7, 425-33

#### Bronchoscopes

Pseudoepidemic from *Mycobacterium gordonae* due to a contaminated automatic bronchoscope washing machine (Rossetti et al). 2002;30:196-7 (Letter)

### C

#### Catheters

Guidelines for the prevention of intravascular catheter-related infections (O'Grady et al). 2002;30:476-89 (Special Report)

#### Causality

Causal inference: the case of hygiene and health (Aiello and Larson). 2002;30:503-10 (Current methodological concepts)

#### Certification

Practice analysis for infection control and epidemiology in the new millennium (Goldrick et al). 2002;30:437-48

#### Cesarean section

Prescribing practice for antibiotic prophylaxis for cesarean section in a teaching hospital in Brazil (Heineck et al). 2002;30:341-5

#### Children

The effect of a comprehensive handwashing program on absenteeism in elementary schools (Guinan et al). 2002;30:217-20

Improving benchmarks for surveillance by defining types of pediatric intensive care units (Epps et al). 2002;30:68-70 (Letter)

#### Clinical case studies

Clinical case studies. 2002;30:170-3, 242-5, 303-10

#### Clinical trials

Use of silver-hydrogel urinary catheters on the incidence of catheter-associated urinary tract infections in hospitalized patients (Lai and Fontecchio). 2002;30:221-5

#### Commentary

Commentary. 2002;30:495-8

#### Commerce

Making the business case for infection control: pitfalls and opportunities (Dunagan et al). 2002;30:86-92

#### Conjunctivitis

Direct costs associated with a nosocomial outbreak of adenoviral conjunctivitis infection in a long-term care institution (Piednor et al). 2002;30:407-10

#### Coronary artery bypass

Process improvement plan for the reduction of sternal surgical site infections among patients undergoing coronary artery bypass graft surgery (Usry et al). 2002;30:434-6 (Practice forum)

#### Correspondence. see Letters

#### Craniotomy

Hospital-acquired meningitis in patients undergoing craniotomy: incidence, evolution, and risk factors (Reichert et al). 2002;30:158-64

#### Creutzfeldt-Jakob disease

Handling of surgical instruments in a presymptomatic familial carrier of Creutzfeldt-Jakob disease (Fishman et al). 2002;30:303-6 (Clinical case study)

Testing for Creutzfeldt-Jakob disease (Belkin). 2002;30:197-8 (Letter)

#### Critically ill patients

Severity-of-illness markers as predictors of nosocomial infection in adult intensive care unit patients (McCusker et al). 2002;30:139-44

#### Cross infection

Banning artificial nails from health care settings (Salman et al). 2002;30:252-4 (Practice forum)

Clinical and epidemiologic significance of coagulase-negative staphylococci bacteremia in a tertiary care university Israeli hospital (Finkelstein et al). 2002;30:21-5
